INDEX.

List of sub-headings :—CABLE, CENTRAL STATIONS, CITY NOTES, CONTRACTS OPEN AND CLOSED, CORRESPONDENCE, ELECTRICAL, ELECTRICITY, ELECTRIC LIGHT AND LIGHTING, LEGAL, NEW COMPANIES, OBITUARY, OFFICIAL RETURNS, PERSONAL, RAILWAYS, REVIEWS, SOCIETIES AND INSTITUTIONS, TELEGRAPH, TELEPHONE, TRACTION AND TRAMWAYS.

ABSOLUTE measurements, by Prof. A. Gray, 656
Accident, 55, 124
„ Liverpool overhead railway, 8
Accidents, street railway, in the United States, 206
Accumulator, The Lamina, Elieson's electric motor car, and, 691
„ traction, by W. E. Ayrton. 859
„ traction on rails, and ordinary rails, 705
„ traction on rails and ordinary rails, by L. Epstein, 737
Accumulators: their application to central station, lighting, and power, 319
„ Theory of, 936
„ in central stations, 413
„ in central stations of electric tramways, The use of, 751
„ Notes on the theory of lead, 361
Action of solenoids on cores, 177
Ader recorder, 148, 218
Advantages of the alternating current; electricity in mining, 429
„ and disadvantages of the copper voltameter, 882
Air-pump, Edwards', 406
„ space submarine cable, 147
Aldrich, Wm. S., on Notes on rating electric power plants upon the heat-unit standard, 874
Aldridge, J. G. W., on the Present tendencies of electric tramway traction, 354
Alkali percarbonates, Production of by electrolysis, 936
Alternate current rectifiers, 494
Alternating current, Advantages of the, electricity in mining, 429
„ current enclosed arc lamp, Tests of an, 921, 935
„ current, Exhibition of instruments for determining the
„ current range and position finder, 238
frequency of an, 285
„ current stations, Advantages of synchronous motors in, 442
„ currents, electrolysis by, 123
„ currents on the human body, Effect of, 526
Alternatifs, Notions generales sur les courants, by Oscar Colard, 461
Aluminium, Discovery of native, 14
„ Electrical conductivity of, 423
Amalgamation, 49
America, Working hours in, 561
American advice on electric traction, 174
„ and English trolley wire, 594
„ apparatus for England, 448
„ Civil Engineers' new society house, Electric gas-engine plant for the, 852
„ electric motor carriage, 156
„ insulated wire consolidation, 802
„ invasion, Another, 905
„ practice with feed heating, 600
American *v.* British, by F. B., 789
Amperemeter, Thermal, 936
Ampere-turns, 123
Analysis, New formula for coal, 149
Andreoli, E., on the Cassel Gold Co., 112, 144, 204
„ on Sterilisation of impure water by ozone, 498
„ on the Progress of electro-chemistry and electro-metallurgy during the last twenty-five years, 637
Appleyard, Rollo, on Twenty-five years' of experimental physics, 672
Application of electric power on trunk line railways, 706
Appointments, 88, 123, 582
„ Glasgow, 730, 771, 837, 937
„ vacant, 22, 54, 88, 124, 185, 284, 314, 351, 383, 413, 414, 801, 872
Apprentices, Novel suggestion *re*, 847
Arc lamp, Tests of an alternating current enclosed, 921, 935
„ lighting, Recent progress in, by Elihu Thomson, 94, 103
„ „ Twenty-five years' progress in, by R. E. Crompton, 654
„ carbon, Smith's cut-out, 156
„ Counter E.M.F. of the, 802
„ curves and crater ratios with cored positive carbons, On the relations between, by Hertha Ayrton, 519
„ lamp, The Queen Pharos automatic, 236
„ machine, The Rushmore multi-circuit 173
Archives of the Röntgen ray, 383
Arno Riccardo on, A simple method of starting alternating single-phase induction motors, 753
Arrhenius's Ionic dissociation theory: The importance of, in analytical chemistry, 604
Arsenic, antimony, and mercury, The extraction of, from their ores, 55
Artesian wells, 151
Australasian news, 211
Automatic arc lamp, The Queen Pharos, 236
„ block signalling, 40
„ interrupter for opening and closing from a distance the circuits traversed by high-tension currents, 4
Ayrton, Hertha, on the Relations between arc curves and crater ratios with cored positive carbons, 519
„ Prof. W. E. and J. V. Jones, Prof., on The determination of the ohm made in testing the Lorenz apparatus of the McGill University, Montreal, 738
„ Prof., on the Permanency of resistance coils, 606
„ Prof. W. E., on Accumulator traction, 859
„ and Mathers' improved electrostatic voltmeter for low pressures, 472

BABCOCK, I. H., on Electrical central station economies, 167
Balloon signalling, Electric, 839
Bankruptcy proceedings, 19, 113, 212, 244, 274, 309, 350, 436, 576, 607, 695, 723, 760, 865, 891
Barnes, H. T., and Callendar, H. L., on a New method of determining the specific heat of a liquid in terms of the international electrical units, 301
Basis, New, of dynamo calculation and classification, 176
Battery cells, How should they be tested, by Rankin Kennedy, 883, 924
„ the storage, in America, 549
„ the Velvo-carbon, 338
Batteries, secondary, The Institute of Electrical Engineers, 851
„ secondary, Twenty-five years' progress in, by L. Epstein, 633
„ Secondary, 394
„ Some new forms of gas, and a new carbon consuming battery, by W. E. Case, 410
„ Storage, 849
„ Testing storage, by Rankin Kennedy, 821
„ Twenty-five years' retrospect on primary galvanic, by T. E. Gatehouse, 688
Battle of the Engineers, 525
Baynes, Mr., interviewed, 837
Bedell, F., Chandler, R.E., and Sherwood, R H., on the Predetermination of the regulation of a transformer with non-inductive load, 289
Behr lightning express, 282, 715
Belgian honours for Prof. Hughes, 532
Bell, Watertight, 765
Belt-driven generators, Comparative economy of direct-driven and, 871
Belts, Horse-power diagram for, 263
Benjamin, C. H., on Electricity *v.* shafting in the machine-shop, 193
Bennett-Phythian destructor, 438
Bicycle lamp, An efficient electric, 175
Blackpool Tower fire, 156
Blaikie, J. R., on Distributing systems, 131
Blindness, Electric light, 150, 514
Block signalling, Automatic, 40
Board of Trade report on the Bournemouth electric supply station fatal accident, 197
Boiler furnace, Efficiency of combustion in a, 269, 506, 558
„ making, Twenty-five years' progress in, by W. H. Booth, 645
„ Shortness of water in a, 303
„ The Galloway, 108
„ The Philadelphia water-tube, 351
Boilers and steam plant, including details of steam pipes and fittings, Management of by A. B. Mountain, 914, 942

Boilers and steam plant, The management of, 881
" Steam, 770
" Steaming conditions in engines and, 179
" The defects in steam, 541
Booth, W. H., on Twenty-five years' progress in boiler making, 645
Boot, H. L. P., on Public street lighting, 61
Borough engineers and their committees, 350
Boston subway, 431
Boult's system of electric signalling, 383
Bournemouth electric supply station fatal accident, Board of Trade report on the, 195
Bradford extensions, 761
Braincraft *v.* handicraft, 934
Brazilian Government telegraph system, 272
Break (total), in a cable, Localisation of a, 539
Breaks and partial earth faults in submarine cables, Localisation of, 919
Breakdown, Gas engine, 614
" Simple cause of, 937
Brevity the soul of wit, 23
Bright, Chas., on the telegraphs of the United Kingdom, 308, 328, 397
" Chas., on the Construction, laying, and repairing of submarine telegraphs, 669
Brillie meter, 723
British, American *v.*, by F. B., 789
" Association meeting at Toronto, 53, 216, 250, 255, 300, 305, 327, 354, 386, 395, 417
" Association screw-gauge report, 302
" trade abroad, 217
Brixton *en fête*, 907
"Broken reed," A, 218
Broken wire, in a multiphase system, Apparatus for indicating, 563
Brooklyn Heights Railroad Co., by H. C. Gunton and H. Lomas, 232
" Railbonding in, 448
Brougham, A horseless, 267
Brush (American) plant, 79
Brussels electric tramways, by E. K. Scott, 363
Brussels exhibition, 548, 771
Burke's system of cable telegraphy, 175
By their capital per kilowatt ye shall know them, 707

CAB drivers' protest, The, 313
Cab fatality, 413

CABLES—
Aden-Zanzibar, 154
Air-space submarine, 147
All-British, to Australia *vid* the Cape of Good Hope, 698
Amazon, 768
Bermuda and Jamaica submarine telegraph contract, 215, 444, 511, 868
Cable companies abroad, 594
Cape, to the, 799
Capacity of submarine, 747
China Sea, In the, 932
Colonies and, 515
Commercial Cable Company, 933
Delays in the service to Australia, 545
Direct cable communication to the West Indies *vid* Bermuda, 904
French-American, 311, 768
" No landing for the, 86
Halifax and Bermudas, 184
Hawaii, 283
Iceland, 445
Interruption in, to South Africa, 869
" Strange cause of an, 382
Localisation of a total break in a, 539
" of breaks and partial earth faults in submarine cables, 919
Mark buoys, 699
Ocean, Protection of, 203
Pacific, 184, 283, 580
" American, 835
" The new, 215
Recorders, 70
Repairing under difficulties, 932
Seismology and, 1
Siemens & Halske telegraph, 497
" " telephone, 941

CABLES—*continued.*
Signalling through, 144, 157
Smith and Granville's telephone, 89, 104
South Australian service, 511
SS. *Silvertown*, 381
Telegraphy, Burke's system of, 175
Testing, A forgotten method of, by Dr. A. Tobler, 460
v. warships, 932
West India cable communication, 933
Working of long submarine, by R. M. Sayers and S. S. Grant, 65
Working submarine, Limits of speed in, as affected by faults or leaks, and by the proportions of the materials, by W. A. Price, 190

Cable and insulation testing, with suggestions for new apparatus, 789
" ways, Development of electric, by Richard Lamb, 713, 774
Cabs, Electrical, 247, 271
Cadmium standard cell, 936
Calcium, Carbide of, 156
Calculation and classification, A new basis of dynamo, 176
Callendar, H. L., and Barnes, H. T., on A new method of determining the specific heat of a liquid in terms of the international electrical units, 301
Canton Electric Light Company, The three-wire 440-volt plant of the, by A. H. Perkin, 342
Capacity of electrical conductors, The safe carrying, by C. H. Sewall, 884, 940
" of polarisation, The measurement of the, 414
" of submarine cables, 747
Capital per kilowatt ye shall know them, By their, 707
Carbide of calcium, 156
Carbon consuming battery, On some new forms of gas batteries and a new, by W. E. Case, 419
Carbons, On the relations between arc curves and crater ratios with cored positive, by Hertha Ayrton, 519
Carhart, H. S., on Design, construction and test of a 1,250-watt transformer, 495
Carriage, New electrical, 171
Carrying capacity of electrical conductors, The safe, by C. H. Sewall, 884, 940
Case, W. E., on Some new forms of gas batteries and a new carbon-consuming battery, 419
Cassel Gold Company, by E. Andreoli, 112, 144, 204
Cathode rays and electric oscillations, 615
" " in space, 382
Cause of a cable interruption, Strange, 382
Ceiling rose, 181
Cell, Cadmium standard, 936
Centralisation of electricity supply for lighting, power, tramway, and general purposes, by Arthur Wright, 393

CENTRAL STATIONS—
Accumulators in, 413
Bradford extensions, 761
Central station electric coal mining plant in Pennsylvania, U.S.A., by W. S. Gresley, 814
Daylight work of central stations, The, by T. C. Martin, 8
Economies, Electrical, by I. H. Babcock, 167
Electric tramway central stations, The use of accumulators in, 751
Hammersmith, 661
Isolated plants *v.*, 264
Lighting and power, Accumulators: their application to, 319
List, Our, 937
Modern, A (Hammersmith), 661
Reading, 533
Twenty-five years' developments in central stations, by Robert Hammond, 683

Chamberlain and Hookham meter, 157
Chandler, R. E., Bedell, F., and Sherwood, R. H., on the Predetermination of the regulation of a transformer with non-inductive load, 289
Chapman, W. H., on Action of solenoids on cores, 177
Characteristics, Dynamo, by Prof. Wilbur M. Stine, 201
Chemical action of electrical oscillations, 936
Chess by cable, 22
Chicago electrical papers, 582
Chitty dynamo, 836
Cities, Electric railways in, by G. C. Cunningham, 357
City and Guilds of London Institute, 155
" of London Co. and the Commissioners of Sewers, 729

CITY NOTES—
Accumulatoren, Fabrik Aktiengesellschaft, 584
Allgemeine Elektricitats Gesellschaft, 909
Aluminium Co., 352
Anglo-American Telegraph Company, 128, 159, 187, 482
Automatic Telephone Company, 384, 616
Babcock and Wilcox, 384, 910
Bedford Corporation electric lighting accounts, 90
Belfast electric light accounts, 56
Blot, G. R., and Co., 804
Bournemouth and Poole Electric Supply Company, 872, 910
Brazilian Submarine Telegraph Company, 550, 584, 772
Brighton and Rottingdean Seashore Electric Tramroad Company, 316
Bristol Tramways and Carriage Company, 220, 250
British Aluminium Company, 129, 158
" Columbia Electric Railway Company, 449, 910
" Insulated Wire Company, 58
" Thomson-Houston Company, 160
Brockie-Pell Arc Lamp Company, 910
Brush Electrical Engineering Company, 251, 316, 352, 384, 414
Cambridge Electric Supply Company, 160
Central London Railway Company, 188
Charing Cross and Strand Electricity Supply Corporation, 25, 92
Chelsea Electricity Supply Co., 550, 584
Chili Telephone Company, 159, 188
City and South London Railway Company, 92, 127, 158
" of London Electric Lighting Company, 25, 128, 188, 616, 772
Commercial Cable Company, 352, 840
Companies to be struck off the register, 584
County of London and Brush Provincial Electric Lighting Co., 92, 160, 872
Coventry Electric Tramways Company, 516, 594, 840
" Gas Fitting, Electrical, and Engineering Company, 92
Crompton & Co., 90, 91, 125, 188, 220, 702, 804
Cuba Submarine Telegraph Co., 219, 251
Direct Spanish Telegraph Company, 384
" U.S. Cables Company, 92, 125, 128, 160, 516
" West India Cable Co., 616, 702
Dublin United Tramways Co., 92, 188
Eastern Extension, Australasia and China Telegraph Company, 58, 449, 550, 583, 840
" Telegraph Company, 92, 126, 482, 550
Edison and Swan United Electric Light Company, 58, 128, 159, 187
Electrical Copper Company, 910
" Power Storage Company, 25, 58
Electric and General Investment Company, 58, 804, 872
" Construction Company, 58, 92, 126, 804
Electro-Chemical Company, 772
Elmores, 831
" American and Canadian Copper Company, 187
" German and Austro-Hungarian Metal Company, 25, 57
" Patent Copper Depositing Company, 384
Epstein Electric Accumulator Company, 383
General Electric Company of America, 160
Glasgow Corporation electricity accounts, 186
Globe Telegraph and Trust Company, 92 127, 159

CITY NOTES—*continued.*
Gutta-Percha Corporation, 804, 840
Halifax and Bermudas Cable Company, 352
Henley's, W.T., Telegraph Works Company, 188
House-to-House Electric Light Supply Company, 909, 938
Imperial Tramways Company, 286, 702
Improved Electric Glow Lamp Company, 872
India-Rubber, Gutta-Percha, and Telegraph Works, 58
Indo-European Telegraph Company, 516
Isle of Man Tramways and Electric Power Company, 352, 384
Liverpool Overhead Railway Company, 220
London Electrical Omnibus Company, 804, 938
Madeira Electric Lighting Company, 25
Manchester Corporation electric lighting accounts, 90
" Mutual Telephone Syndicate, 550
Metropolitan Electric Supply Company, 25, 449
Monte Video Telephone Company, 516, 550, 584
National Electric Free Wiring Syndicate, 128, 160
" Motor Carriage Syndicate, 128
" Telephone Company, 126, 128, 158, 872
North-East Electric Railway Company, 910
" Staffordshire Tramways Company, 251
Northwich Electric Supply Company, 482
Norwich Electric Tramways Company, 516
Oriental Telephone and Electric Co., 550
Parker, Limited, Thomas, 25, 57
Petroleum Engine Company, 550
Rand Central Ore Reduction Co., 772
" " Electric Works, 840, 872
Reuter's Telegram Company, 449
Rockhampton Gas and Coke Company, 415
Royal Electric Company of Montreal, 482, 804
St. James's and Pall Mall Electric Light Company, 92, 507
St. Lawrence Power Company, 160
Salt Lake and Ogden Gas and Electric Light Company, 449
Smithfield Market Electric Supply Company, 58, 840, 872, 910
Southampton Corporation electric light accounts, 90
South London Electric Supply Corporation, 515
" Staffordshire Tramways Co., 25
Stock Exchange Notices, 58, 92, 128, 160, 188, 286, 352, 384, 415, 449, 482, 731, 772, 804
Submarine Cables Trust, 516
Sunderland Corporation electric light accounts, 56
Sussmann Electric Miner's Lamp Co., 516
Telegraph Construction and Maintenance Company, 92, 127
Tramways Union Company, 220
United River Plate Telephone Co., 25, 57
Venezuela Telephone and Electrical Appliances Company, 160, 731
Waterloo and City Railway Co., 160, 219
West India and Panama Telegraph Company, 516, 616, 701
Western and Brazilian Telegraph Company, 616, 701, 731
" Union Telegraph Company, 384
Westminster Electric Supply Corporation, 128
Willans & Robinson, 415, 449, 516, 731
Windermere and District Electric Supply Company, 482, 550
Wireless Telegraph and Signal Co., 731
Wolverhampton electric light accounts, 56
Woodhouse & Rawson United, Limited, 25
Yorkshire House-to-House Electricity Company, 58

Classification of patents in relation to a preliminary search for novelty, and patent law reform, by J. S. Fairfax, 913
Clearance in steam cylinders, 885
Clontarf section of the Dublin electric tramways, 895
Clutch, Elastic, 559
Coal, 39
Coal analysis, A new formula for, 149
" mining electric power plant, The test of a, by T. D. Phillips and J. G. Swain, 365
" mining plant in Pennsylvania, U.S., Central station electric, by W. S. Gresley, 814
Coast communication, 282, 548
" defence, Search lights for, 412
Coefficient of self-induction of a conductor, A method of measuring the, by L. H. Fry, 398
Coherer, The, 458
" Origin of the, 204
Coil, Theory of the induction, 529, 597
Colard, Oscar, on Notions generales sur les courants alternatifs, 461
Colonial premiers and cable matters, 54
Colonies, Cables and the, 515
Columbia rail-bond, 406
Combined lighting and traction stations, 142
" schemes of lighting and traction, 393
Combustion in a boiler furnace, Efficiency of, 269, 506, 558
Comedy of errors, 513
Committees, Borough engineers and their, 350
Companies *v.* municipalities, 23
Compound dynamo, Determination of the series windings for a, by L. H. Fry, 541
" engines, Power distribution in, 241
Compressed air for mining purposes, Mr. Rix on the use of, by A. L. Steavenson, 167
" air systems, 246
Commutator polisher, Crompton-Adams, 406
Commutators, An emery wheel machine for, 565
Condenser, The Wheeler, 284
Conductivity of aluminium, Electrical, 422
" The Institution's standard of copper, 286
Conductor, A method of measuring the coefficient of self-induction of a, by L. H. Fry, 398
Conductors, electrical, The safe carrying capacity of, by C. H. Sewall, 884, 940
Conduit electric tramways, New York, 618
" traction in New York, Electric, 395
Conference, An informal, 155
Constants of electricity supply meters, Some tests on the variation of the, with temperature and with current, by G. W. Donald Ricks, 386, 417, 451
Consular reports, From the, 437

CONTRACTS OPEN AND CLOSED—
